EXPLORER 760

The Explorer 760 is an exciting 76ft sailing catamaran that caters for the adventurous sailor who wants to enjoy the comfort and stability of a large sailing catamaran. It accommodates 12 guests plus 4 crew members in total luxury. The yacht boasts the same beauty as her sister ships with clean high water lines.

The large spacious cockpit is well appointed for entertaining or open air dining. Its fly bridge towers well above her hulls and provides uninterrupted 360 degree views of its surroundings. The intelligent deck layout enables the yacht to be safely sailed with minimal crew input. Due to the extensive usage of light weight materials the yacht has a very impressive performance under power or sail.

The flush uncluttered decks makes movement about the yacht easy and suitable for sun tanning, storage of water toys, solar panels etc. To help keep the interior of the yacht cool the overhang above to the saloon windows shields the sunlight from entering into the yacht. The vertical windows also provides generous head room in the saloon for even the tallest of people. The wide sculptured transoms make great swim platforms and tender docks.

Technical

Composite sandwich construction throughout

Headroom: 2 m (6ft 6in) minimum
